Due Dates of Returns
New licensees will file on a quarterly basis through their first calendar year. The Division of Revenue will then perform a 'lookback' procedure and determine if the filing frequency should be changed.

- Monthly Filers: 20th day of the following month
- Quarterly Filers: last day of the first month after the end of the calendar quarter.

Gross Receipts Tax Exemption
Gross receipts (and for purposes of the tax imposed by Chapter 43, Title 30 of the Delaware Code “rent” and “lease rental payments”) from transactions between related entities are not subject to gross receipts tax. For this purpose, entities are “related” only if (i) the same five or fewer natural individuals own, directly, indirectly or beneficially, 80% or more of each entity, or (ii) 100% of each entity is owned by member or members of a single family. See Section 2210(b) of Title 30 of the Delaware Code for further details, including the definition of family member for purposes of this exclusion.

Common Ownership/Direction
A business that operates through more than one branch or legal entity is only entitled to one monthly or quarterly exclusion from gross receipts, if the branches or entities making up the enterprise have common ownership or common direction and control.

Caution Concerning Multiple Exclusions
Nearly all licensees are permitted to reduce their monthly or quarterly gross receipts by certain specific exclusions in determining their taxable gross receipts. The Delaware Code limits the number of allowable exclusions for each general business activity. A taxpayer conducting a business activity for which an exclusion is provided is entitled to ONLY ONE monthly or quarterly exclusion regardless of the number of locations at which such activity is conducted. For example, a taxpayer who operates multiple convenience stores at which gasoline is also sold should aggregate the receipts from all goods sold at all locations and subtract only one monthly exclusion. Separate retail licenses are not required for the sale of food and petroleum products. While the Division of Revenue may assign a unique business code which reflects the primary product sold, retailers, wholesalers and manufacturers may sell or manufacture multiple product lines without obtaining a separate license for each product line. However, separate licenses are required and separate exclusions are permitted if a taxpayer conducts more than one ACTIVITY, such as retailing and wholesaling.

Retail Crime Fee
Effective September 16, 2008, an annual fifteen dollar ($15.00) Retail Crime Fee has been added to General retail business licenses and Grocery store retail licenses. There are no additional forms to complete in order to remit this fee. As a result of the Retail Crime Fee: 1) The annual and three year license fees for all general retailers and grocery store retailers with a primary license location will increase from $75 to $90 and $225 to $270, respectively, beginning September 16, 2008, and 2) The annual and three year license fees for all general retailers and grocery store retailers with secondary, branch or transient location will increase from $25 to $40 and $75 to $120, respectively, beginning September 16, 2008.

Regulatory and Local Requirements
The Business License Issued by the Division of Revenue is not a regulatory license and the issuance of such license does not attest to the qualifications of the applicant to perform the activity described on such license. Many local jurisdictions have requirements for a business license and may have restrictions concerning the locations of conducting the referenced business activity. Please check with the local government office in the town, city or county in which you will conduct your business.

The State of Delaware also has a Division of Professional Regulations. Many occupations and some types of equipment have regulatory requirements. Please contact the Division of Professional Regulation for more information.
